

# CUSTOMIZED METAL SOLUTIONS

## FOR PACKAGING & PROCESSING EQUIPMENT

Ryerson has a team dedicated to packaging and processing equipment manufacturing. They are actively solving problems for companies like yours by designing a supply chain to offer a single source for:

- **CNC machining**
- **Framework – fully welded and kits**
- **Stainless polishing**
- **Raw materials**

### MORE THAN METAL

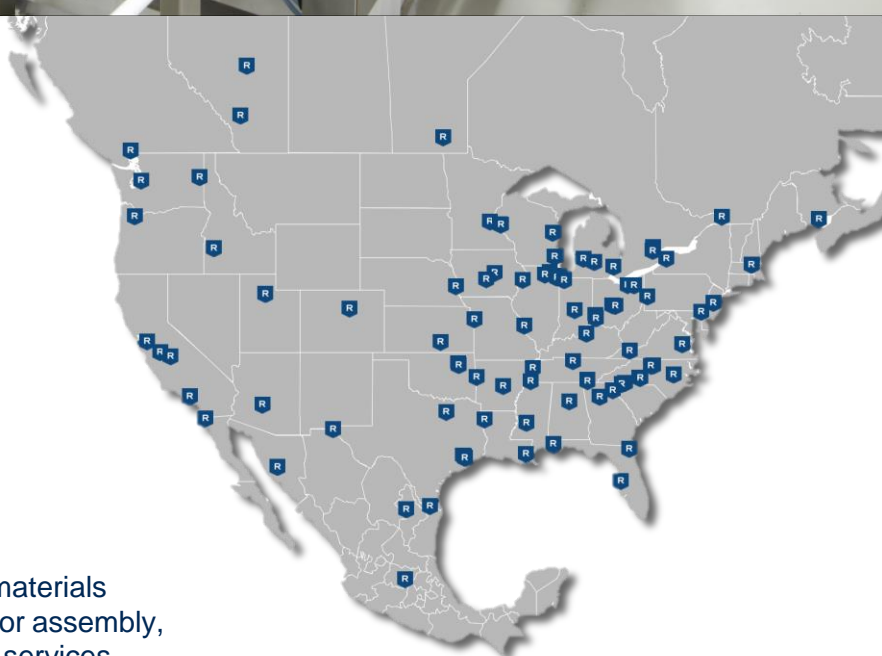

Whether you need raw materials or complex parts ready for assembly, we offer complete metal services.

### STREAMLINING YOUR SUPPLY CHAIN

Our network of warehouses, processing centers, trucks and vendors are located across North America offering you a single source supplier. One purchase order does it all.

### TRANSFORMING YOUR BUSINESS

Our experts work with you to help improve manufacturing processes and reduce bottlenecks to lower costs and improve cash flow.
